

August 20, 1974

Mr. B. F. Helms
County Planner
~~Moore County~~
Carthage, N. C. *2 JK*

Dear Mr. Helms:

Purpose of this letter is to transmit a set of the approved plans for Phase I of the proposal. As discussed August 9, 1974, a contour map showing final design elevations is to be prepared for the Phase II, designating surface drainage patterns to be achieved at the landfill's completion as well as final elevations. Further conditions of the approved operations are as follows:

1. Operation of the site in accordance with the provisions of the N. C. Department of Human Resources, Division of Health Services "Rules and Regulations Providing Standards for Solid Waste Disposal."
2. Maintenance of at least five feet of separation between solid waste placed in natural or excavated areas and the site's ground water table.

As discussed, this site, being an existing site, was in operation prior to enactment of the landfill recordation law. However, the intent of the law is to notify future property owners that the land has been used for that purpose and it would be desirable to proceed with this requirement.

If this office can be of further assistance, do not hesitate to call.

Yours truly,

Jerry C. Perkins, Assistant Head
Solid Waste & Vector Control Branch
Sanitary Engineering Section
